Featuring: *Marathon Compactors*

Marathon is the leading manufacturer of high-quality waste handling and recycling equipment, such as **stationary and self-contained compactors**. Marathon started in the late 1960's with the first RamJet compactor and continues building trust with honesty, integrity, and hard work. **Marathon** offers a wide range of units to meet the needs of a variety of industries based on their individual needs:

Stationary Compactors:

Utilized for weekly volumes of more than 100 cubic yards of uncompacted dry waste materials – for: **stadiums/arenas, malls, warehouses, convenience stores, shopping centers, office complexes & distribution centers.** **Perks:** Controls pests & improves housekeeping; reduces labor costs & disposal fees; requires less space for storage; eliminates odor.

Self-Contained Compactors:

Utilized for weekly volumes Less than 150 cubic yards – for shopping plazas, restaurants, cafeterias, fast food locations, schools, and nursing homes. More than 100 cubic yards – for malls, shopping centers, large supermarkets, food processors, large hotels/motels and hospitals.

Perks: **Marathon's** patented CYCON Life-Xtender Cyclic Control System does not require limit or pressure cycle control switches; also reduces trash removal costs by producing superior payloads; rear door retains wet waste; containers are factory tested and certified leak-free.
