ST. LOUIS (636) 296-7119

STL TOLL FREE (800) 777-2766

KANSAS (913) 839-1777

Featuring: Galbreath U5-OR-174 Roll-Off Hoist

When it comes to heavy lifting, nothing compares to Wastequip's line of Galbreath Roll-Off Cable Hoists. For over 40 years, Galbreath has set the standard by which all others are measured and is the most trusted cable hoist brand in the market.

Armor currently has a 2018 Volvo with Galbreath 60,000# R/O Hoist Available for Demonstration or Purchase!

Outside Rail cable hoists are the most common and versatile in use today. Inside/Outside Rail cable hoist have rollers on the inside of the frame that line up with rails on a container to help guide it during loading. These cable hoists offer the ability to load both styles of containers.

Some models have additional benefits, such as deadlift to help load containers found in tight spaces, and extended tail models allow for low loading angles where height clearance is an issue.

A centered cab-mount "Power Tower" is the easiest and most ergonomic control tower for operating this hoist. Controls are perfectly positioned for maximum efficiency and control, while Galbreath's famous "Plug n' Play" wiring system provides easy, independent installation that eliminates crossed wires, loose connections, corrosion and splices.

Galbreath Model U5-OR-174

perks:

- Use for Container Sizes: 18' – 22'
- 60,000 lb. Capacity
- 174" CT (cab to trunnion) Dimension

Armor has OEM Parts stocked for your immediate Truck needs!

These are our Holiday Party
Dress-up Winners!

Don Chronister & Mike Fleming
(Both in our StL Service Dept)

Hmmm..not sure there are any other
words to describe this craziness,
just...."OH MY"!

At our StL Location

We are currently seeking an additional full time **Diesel Mechanic** to add to our Armor family. Must be knowledgeable in electrical, hydraulics, and have experience working on all types of heavy equipment diesel engines. If interested, please contact:

Jeremy Tucker at jeremyt@armor-equip.com

Check it out: more to share....

SOLAR POWERED SAVINGS FOR ARMOR

As part of **Armor's** initiative to help save the planet, we added solar power to our main building in the fall of 2013. We were told that it would offset 63% of our power consumption, and remarkably, we have saved that much exactly every year.

We also receive an energy credit for the power fed back to the grid during non-business hours. Unfortunately, most the energy savings incentives are no longer available, which makes adding solar power to a facility much more costly. In our case, we were able to recoup the cost in just a few years.

In addition to our use of solar power and an aggressive recycling program, we are always looking for ways to do our part.

Let us know if you have any energy efficient suggestions!

If you know someone that needs to be Added to our Quarterly Newsletter mailings, or if you would like to be Removed, please let us know by sending an email directly to AngieC@armor-equip.com

We don't want anyone to miss out on our smiling faces!

WASTEQUIP
Nationally known for personal service

Toter
INCORPORATED

Armor is very excited to announce that we now offer **Wastequip Containers** and **Toter Carts** in Missouri, Illinois and Kansas! We have a wide range of carts and containers currently in-stock; or for specific logo customization, we can ship them directly to your location!
